Hi Kyle,

I successfully accessed your hosting access. I noticed that you did not purchase vps rather you only purchased a domain. That's why we can not go ahead to proceed hosting your site.

I recommend you purchase the KVM 2 package.

you can also visit package list by this link

Thank you

No worries at all! Once you've placed the order for the KVM 2 package, just let me know, and we'll be able to move forward with hosting your site.
